Warranty

This vehicle is equipped with a front bumper that has been tested at an impact speed of * mph and a rear bumper that has been tested at an impact speed of * mph, and has sustained no damage to the vehicle's body and minimal damage to the bumper and attachment hardware. Minimal damage to the bumper means damage that can be repaired with the use of common repair materials and without replacing any parts. The stronger the bumper, the less likely the car will require repair after a low speed collision. However, this vehicle is equipped with a bumper system that, under federal bumper standard test conditions and procedures, can withstand a frontal impact speed of 2.5 mph and a rear impact speed of 2.5 mph with no more damage than allowed by federal bumper standard. *Not tested to specifics of N.Y. Law.
