Smog Rating (tailpipe only)

5

Best

Actual results will vary for many reasons, including driving conditions and how you drive and maintain your vehicle. The average new vehicle gets 29 MPG and costs \$8,500 to fuel over 5 years. Cost estimates are based on 15,000 miles per year at \$4.15 per gallon. MPGe is miles per gasoline gallon equivalent. Vehicle emissions are a significant cause of climate change and smog.

This vehicle is equipped with a front bumper that has been tested at an impact speed of * mph and a rear bumper that has been tested at an impact speed of * mph, and has sustained no damage to the vehicle's body and minimal damage to the bumper and attachment hardware. Minimal damage to the bumper means damage that can be repaired with the use of common repair materials and without replacing any parts. The stronger the bumper, the less likely the car will require repair after a low speed collision. However, this vehicle is equipped with a bumper system that, under federal bumper standard test conditions and procedures, can withstand a frontal impact speed of 2.5 mph and a rear impact speed of 2.5 mph with no more damage than allowed by federal bumper standard. *Not tested to specifics of N.Y. Law.
